The company invests in high quality products manufactured exclusively for 2S, with our specifications and quality control. All products are CE marked.

## CERTIFICATIONS

- National Organisation for Medicines (EOF): Registration certificate registry manufacturers of Medical Devices Class I
- ISO 9001: 2008
- ISO 13485: 2003
- Certificate of compliance based on the requirements of the Ministerial Decision DY8d/G.P.oik./1348/2004 for the distribution of medical products
- EAN13 Barcode System
- Free Sales Certificate

## WARRANTIES

We offer all the necessary warranties for our products, according to European Legislation.

## TECHNICAL SUPPORT

Our Technical Support department expertly covers all support needs in our company premises and on the spot with spare parts availability for all our products. We cover all your technical needs directly and efficiently.

# We, the 2S team...

...are aware that the healthcare industry is, above all, a human centered industry. We never lose sight of the fact that we provide care and comfort to people in need, thus, to both patients and caregivers; patients and families who rely upon us to receive respectful and dignified treatment solutions with quality products. Our mission is to provide superior quality healthcare services that Patients recommend to family and friends, Physicians refer for their patients, Purchasers select for their clients, Employees are proud of, and Investors seek for long-term return.

We aim to be a trustworthy provider for our customers and partners, both regarding our existing business divisions of Orthopedics, Homecare Equipment and Well being as well as in our future activities. We will be able to fulfill our fundamental principles toward all those connected with 2S:  
to improve the quality of life for the users of our products  
to contribute towards guaranteeing the future of our customers, our partners and ourselves,  
and, in doing so, to promote a good and fair interaction with one another.  
This is what we demand of ourselves

2S customers and partners are at the centre of our day-to-day work. We want 2S customers and partners to be highly satisfied with us. We foster innovation, active market development, individual solutions to problems and social commitment – both domestically and internationally.

With our products and services, we create the greatest possible benefit for our users, customers and partners.

Our full range of products and services meets the highest possible standards of quality and safety. At 2S, we see quality in comprehensive terms, encompassing the quality of both the products and the service we provide.

All 2S products are manufactured exclusively for 2S in internationally acclaimed factories, with specifications set by our company and with our own quality control.

We invest in continuous market research, new structures and new materials, aiming for the optimization of both quality and the best possible pricing. We make sure that our products are affordable and accessible with the best possible value for money ratio.

Our goal is to find ourselves one step ahead of the needs of our customers in providing high quality solutions for Health and Care. Our vision is to establish 2S in the health sector, as the most reliable partner in providing quality products and solutions.

# Neck

**NECK COLLAR WITH CHIN SUPPORT, ADJUSTABLE**

**Code: 10.00.001**

Ventilated Polyethylene Collar constructed in two sections to enable height adjustment. Padded borders with vinyl leather covering for increased comfort. Secure hook and loop closure fastening to the rear (Velcro strap).

**SIZE CHART**

### INGUINAL HERNIA TRUSS, SINGLE AND DOUBLE, ONE SIZE

Code: 10.06.032

A truss provides support for the herniated area, using a pad and belt arrangement to hold it in the correct position. The hernia truss is intended to contain a reducible inguinal hernia within the abdomen. The truss's one size fits all design makes it easy to use. The pads are detachable and can be adjusted to the comfort of each patient. Product comes with 2 pads, and can be used either as a single or a double hernia support.

### JOCKSTRAP

Code: 10.06.002

A jockstrap consists of a waistband with a support pouch for the genitalia and two elastic straps affixed to the base of the pouch and to the left and right sides of the waistband at the hip. 100% cotton.

#### SIZE CHART

S, M, L, XL

### WORKOUT WEIGHT LOSS SHORTS, NEOPRENE

Code: 10.01.021

Premium Quality Workout Weight Loss Shorts from 3mm Aeroprene, highest quality aerated super light triple layered Neoprene. These materials provide an optimal combination of support, compression and heat retention, which improves blood circulation and allows the skin to breathe when worn, thereby keeping you comfortable and dry.

38cm	44cm	50cm	58cm	66cm

**ARM SLING STRAP –ONE SIZE**

Code: 10.06.015

Adjustable strap made of soft cotton material with non-allergenic lining and a pad for more comfort in the neck area. Holds the upper arm so as to achieve better blood flow and does not press the shoulder with his weight.

**IMMOBILIZATION CLAVICLE-SHOULDER JOINT SUPPORT**

Code: 10.06.007

Adjustable splint made of cotton. Immobilizes the shoulder while sets the elbow flexed at 90°.

**SIZE CHART**

Measure the length of your arm from the shoulder to your wrist and find your size.

S	M	L	XL	2XL
34cm	38cm	44cm	50cm	58cm
38cm	44cm	50cm	58cm	66cm

### ARM-SHOULDER IMMOBILISING STRAP

Code: 10.06.031

Hypoallergenic adjustable strap made of cotton featuring a horizontal strip and a strap adjustable in height. Sets the elbow flexed at 90° while allowing some movement in the shoulder. Treatment of dislocations and fractures, post-operative cases.

### SHOULDER SUPPORT

Code: 10.06.035

Shoulder supports made of flexible hypoallergenic cotton that provides heat to the shoulder. Fit both to the left and the right shoulder.

### SHOULDER SUPPORT, NEOPRENE

Code: 10.06.034

#### SIZE CHART

Measure the circumference of your shoulder and find your size.

S	M	L	XL	2XL

38cm	44cm	50cm	58cm	66cm

### SHOULDER ABDUCTION PILLOW BRACE, ONE SIZE

Code: 10.06.016

Pillow brace for shoulder immobilization following shoulder repairs or injuries. Abduction can vary (5°, 30°, 45°-60°). Each size fits left and right. Conformed, shaped pillow can be reversed for desired fit, position and abduction. Consists of a sling that immobilizes the elbow and wrist. A strap extends from the sling up and around the neck. The waist strap holds the abduction pillow in place between the arm and chest.

# Elbow

## ELBOW SUPPORT, ELASTIC

Code: 10.03.001

Elbow support made of elastic fabric. Improves blood flow to the soft tissue areas by producing a constant compression.

## ELBOW SUPPORT WITH SILICONE PADS

Code: 10.03.003

Elbow support made of a high quality and resistance flexible double woven fabric with two large silicone pads. Surrounds muscles, joints and tendons, increases the blood flow, helps the absorbance of hematomas, swellings and inflammations, smoothes post-operative deformations of soft tissues, causes gradual muscle compression and stabilization. Provides preventive protection during work or sports.

## ELBOW SUPPORT, NEOPRENE

Code: 10.03.002

Neoprene elbow support with breathable pores and a strap for stronger support. Adjusts the pressure in the tubers of the elbow.

### SIZE CHART

Measure the circumference of your elbow and find your size.

S	M	L	XL	2XL
22cm	25cm	28cm	31cm	34cm
25cm	28cm	31cm	34cm	37cm

### ELBOW SUPPORT WITH EXTRA NEOPRENE PAD

Code: 10.03.004

Elbow of ventilated neoprene with protective pad. Supports the elbow, causes progressive compression and protects during sports or work.

#### SIZE CHART

Measure the circumference of your elbow and find your size.

S	M	L	XL	2XL
22cm	25cm	28cm	31cm	34cm
25cm	28cm	31cm	34cm	37cm

### EPICONDYLITIS ELBOW SUPPORT (TENNIS ELBOW)

Code: 10.07.007

Elbow supportive strap made of breathable neoprene. It has silicone pad and a safety strap. Provides support to tendons and compression in the elbow tubers.

### NEOPRENE ELBOW SUPPORT –ONE SIZE

Code: 10.07.013

Elbow support made of a high resistant and flexible neoprene with breathable micro-pores. Provides support and relieves from various diseases. It has an incorporated case for applying hot or cold pads.

### ROM ELBOW THERMOPLASTIC SPLINT

Code: 10.03.007

Pre-formed, thermoplastic splint with forearm and humerus (upper arm, shoulder bone) components. User friendly, moulded screws and bolts allow length adjustment of ROM splint. Soft laminated foam padded splint with simple, hook and closures. Two rigid, but light weight, Range of Motion (ROM) hinge splints. Post-operative rehabilitation care for improving ROM of elbow joint.

#### SIZE CHART

Measure the length of your arm from the shoulder to your wrist and find your size.

S	M	L
22cm	28cm	34cm
28cm	34cm	40cm

### ROM ELBOW BRACE, ONE SIZE

Code: 10.03.006

Suitable for the left and right elbow, this state of the art elbow brace provides support and protection following elbow injuries and elbow surgery. It's the modern alternative to serial plaster casting as it allows changes in elbow range of motion throughout the rehabilitation process. Compared to a plaster cast the ROM Elbow is lightweight, comfortable and allows better patient hygiene. The ROM Elbow brace is a versatile, easy to apply, comfortable brace, allowing for ideal fixed or protected range of motion to help improve patient outcomes following surgery or injury. The easy shape-to-fit malleable forearm and bicep cuffs contour to the anatomy for a custom fit. Plush thermoformed pads with unique anti-migration material maximize comfort for long-term wear and improved patient compliance. Snap-to-fit buckles allow for ideal adjustment with one hand. Universal size fits most patients.

# Wrist / Fingers

**NEOPRENE WRIST SUPPORT WITH STRAP – ONE SIZE**

**Code: 10.07.003**

Wrist support with strap made of neoprene. Provides stabilization and wrist control. It is for light injuries and is also effective in preventive support for sports or work.

**ELASTIC WRIST SUPPORT WITH STRAP –ONE SIZE**

**Code: 10.02.002**

Elastic wrist support made of breathable fabric with a strap for support. Provides stabilization and wrist control. It is for light injuries and is also effective in preventive support for sports or work.

**NEOPRENE WRIST SUPPORT WITH THUMB OPENING –ONE SIZE**

**Code: 10.07.004**

Wrist support made of neoprene. It is for light injuries and is also effective in preventive support for sports or work.

### NEOPRENE WRIST SPLINT WITH STRAP, AMBIDEXTROUS –ONE SIZE

Code: 10.07.011

Neoprene wrist splint with removable aluminium bar and strap for wrist immobilization. Stabilizes the wrist by prohibiting flexion-extension movements but leaves the fingers free and functional. It features two cases for the placement of the aluminum bar. Depending on the case that will be used it can be fitted to the left or the right hand.

### ELASTIC WRIST SPLINT WITH STRAP, AMBIDEXTROUS –ONE SIZE

Code: 10.07.012

Wrist splint made of elastic fabric with removable aluminium bar and strap for wrist immobilization. Stabilizes the wrist by prohibiting flexion-extension movements but leaves the fingers free and functional. It features two cases for the placement of the aluminum bar. Depending on the case that will be used it can be fitted to the left or the right hand.

### NEOPRENE WRIST SPLINT WITH THUMB SUPPORT AND STRAP, AMBIDEXTROUS – ONE SIZE

Code: 10.07.014

Wrist splint made of neoprene with removable aluminium bar and strap for wrist immobilization. It also has an extra bar for thumb immobilization. The other fingers remain free. It features two cases for the placement of the aluminum bar. Depending on the case that will be used it can be fitted to the left or the right hand.

### WRIST & LOWER ARM SPLINT (30CM) AMBIDEXTROUS –ONE SIZE

Code: 10.07.015

A wrist splint is a brace that looks like a fingerless glove and that stabilizes your wrist in a straight and sometimes slightly bent-back position. Wearing a wrist splint minimizes pressure on the median nerve and allows you a period of "relative rest" from movements that make carpal tunnel syndrome worse. This splint has 2 aluminum supports and an easy to use strap for better adjustment. It can be used in both hands by repositioning the aluminum stays.

### NEOPRENE THUMB SUPPORT, AMBIDEXTROUS –ONE SIZE

Code: 10.07.006

Wrist splint made of neoprene with bar for thumb immobilization. Limits the mobility of the thumb while supporting the carpal tunnel. Can be fitted both to the left and right hand.

### THERMOPLASTIC THUMB IMMOBILIZING SPLINT

Code: 10.02.012

Molded with thin, lightweight plastic, the Thermoplastic thumb immobilizing splint is a seamless splint supports the thumb and limits wrist motion to reduce pain experienced when gripping or pinching.

#### SIZE CHART

Measure the circumference of your wrist and find your size.

S	M
15cm	20cm
19cm	24cm

Left / Right

### THERMOPLASTIC FUNCTIONAL PRE-FORMED RESTING SPLINT

Code: 10.02.010

This splint is ideal for positioning the hand with arthritis or mild hypertonicity. They position the wrist and hand in approximately 10 degree of wrist extension, 5 degree of ulnar deviation, 45 degree of MCP and PIP flexion, and 20 degree of DIG flexion, with the thumb in 45° of extension midway between radial and palmar abduction.

#### SIZE CHART

Measure the circumference of your wrist and find your size.

S	M	Left / Right
15cm	20cm	
19cm	24cm	

### THERMOPLASTIC THUMB HOLE WRIST COCK-UP SPLINT

Code: 10.02.013

Thumb Hole Wrist Cock-Up Splint maximum wrist support with control of ulnar and radial deviation. Comfortable, neutral position wrist support. •Places the wrist in a neutral position and minimizes deviation. •Provides comfortable, circumferential support to hold the wrist in the desired angle of flexion or extension. •Supports the wrist in the correct position and allows free finger motion.

#### SIZE CHART

Measure the circumference of your wrist and find your size.

S	M	Left / Right
15cm	20cm	
19cm	24cm	

### DYNAMIC OUTRIGGER SPLINT

Code: 10.02.014

Dynamic Outrigger Splint offers extension and flexion treatment splints for the wrist to aid in rehabilitation and recovery from various injuries, surgeries and trauma to the wrist and surrounding area. It saves time when splinting patients after MCP arthroplasty or radial nerve injury. Outrigger contours to the hand and permits radial pull if desired. Precise outrigger placement for a 90° line of pull is achieved by adjusting the screws on each side.

#### SIZE CHART

Measure the circumference of your wrist and find your size.

S	M	Left / Right
15cm	20cm	
19cm	24cm	

### MALLET FINGER SPLINTS (PLASTIC)

Code: 10.06.003

Plastic Finger Splints are designed to aid in the repair of ruptured tendons. They are ideal for fingertip and nail bed injuries and mallet finger.

#### SIZE CHART

S, M, L

### STRIP SPLINT (ZIMMER)

Code: 10.06.021

Strip splint can be cut and conformed to the desired shape. After required splint has been created it can be secured to place with tape.

### "TOAD" AND "BASEBALL" FINGER SPLINTS

Code: 10.06.038

These splints can be reshaped to hold finger at an exact degree of flexion or extension. They provide firm support while injury heals and maintain interphalangeal position for injuries to distal joints. No tape needed.

#### SIZE CHART

S, M, L

# KNEE

## THERMAL KNEE SUPPORT

Code: 10.04.001

Elastic knee support made of a specially processed hypoallergenic cotton fabric. Supports and provides heat in the knee. It causes gradual compression in soft tissues by increasing blood flow.

## SIMPLE ELASTIC KNEE SUPPORT

Code: 10.04.002

Knee support made of elastic cotton. Supports the knee area during minor movement or exercise.

## KNITTED KNEE SUPPORT (OPEN PATELLA)

Code: 10.04.004

This knee support features specially designed shape, to help knee movement and silicone pad ring around the patella area to provide extra support. Silicone is a soft material, allowing the knee to move easily while providing significant support to the patella area, in order to avoid dislocations.

### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L	XL	2XL
34cm	36cm	38cm	41cm	44cm
36cm	38cm	41cm	44cm	47cm

### KNITTED KNEE SUPPORT WITH SIDE – STAYS (OPEN PATELLA)

**Code: 10.04.006**

Knitted elastic knee support with silicone pads and side flexible stays (open patella). Specially designed shape, to help knee movement and silicone pad ring around the patella area to provide extra support.

#### SIZE CHART

Measure the circumference of your knee and find your size.

### NEOPRENE KNEE SUPPORT (CLOSED PATELLA) – ONE SIZE

**Code: 10.04.009**

Neoprene knee support (closed patella), applies constant compression and provides heat. Made of dual laminated perforated neoprene which allows air through the channels, aims to reduce excessive perspiration without losing body temperature.

### NEOPRENE KNEE SUPPORT (CLOSED PATELLA) WITH FLEXIBLE STAYS

**Code: 10.04.010**

Neoprene Knee Support with flexible stays. Protects during exercise.

S	M	L	XL	2XL
34cm	36cm	38cm	41cm	44cm
36cm	38cm	41cm	44cm	47cm

### NEOPRENE KNEE SUPPORT WITH OPEN PATELLA

**Code: 10.04.013**

Provides support and compression for knee sprains and strains, symptoms of arthritis, knee contusions and instability. Neoprene fabric has four-way stretch for optimal comfort and durability. Retains heat while providing compressive support.

### NEOPRENE KNEE SUPPORT (OPEN PATELLA) WITH SIDE METAL STAYS

**Code: 10.04.012**

Triple-reinforced open patella stitching for added support and durability. For minor knee conditions, mild to moderate inflammation, rheumatism, arthritis and conditions associated with overuse such as bursitis and tendonitis. Side metal stays provide extra support to the overall knee area.

### NEOPRENE J-SHAPED KNEE SUPPORT WITH SPIRAL STAYS

**Code: 10.04.017**

Targeted relief. Durable neoprene material provides consistent compression and comfort. J-shaped support maintains proper alignment of the kneecap. Adjustable compression straps provide increased stability. Product features spiral stays that provide stability while allowing for full range of motion.

#### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L	XL	2XL
34cm	36cm	38cm	41cm	44cm
36cm	38cm	41cm	44cm	47cm

### NEOPRENE HINGED KNEE BRACE

Code: 10.04.014

High-performance metal hinge! Covered hinges add comfort as they help stabilize the knee. Recommended for mild ACL/PCL ligament sprains, osteoarthritis, patella dislocations and knee instability.

#### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L	XL	2XL
34cm	36cm	38cm	41cm	44cm
36cm	38cm	41cm	44cm	47cm

### WRAPAROUND NEOPRENE HINGED KNEE BRACE

Code: 10.04.015

Neoprene material is ideal for providing warmth and compression. Thigh & calf straps provide additional compression & support. Easy to use.

#### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L	XL	2XL	3XL	4XL
34cm	36cm	38cm	41cm	44cm	47cm	50cm
36cm	38cm	41cm	44cm	47cm	50cm	54cm

### PATELLA STRAP – ONE SIZE

Code: 10.04.016

Patella strap comes with pressure pad for targeted compression to support the tendon below the kneecap. Made with neoprene material to help provide warmth and compression. Unique design to help improve symptoms of Osgood-Schlatter disease, patellar dislocation. Provides support for an injured or weakened patella, patella tracking and elevation.

### WRAPAROUND NEOPRENE KNEE SUPPORT – ONE SIZE

Code: 10.07.008

Wraparound and one size fits all design makes it easy to use and can accommodate users of a wide range of body types. Neoprene fabric has four-way stretch for optimal comfort and durability. The opening at the back of the knee prevents bunching during physical activity.

### WRAPAROUND NEOPRENE KNEE SUPPORT WITH FLEXIBLE STAYS – ONE SIZE

Code: 10.07.009

Provides support and compression for knee sprains and strains, symptoms of arthritis, knee contusions and instability. Flexible stays are detachable and can be attached in many ways in order to accommodate different needs and body types.

### KNEE IMMOBILIZER

Code: 10.04.008

The Knee Immobilizer is a straight leg immobilizer for medial knee instability and lateral knee instability. This extension knee brace prevents flexion and extension of the knee for mild to severe knee injuries. A breathable knee support with an open patella for optimal leg immobilization. The foam and canvas material add comfort and breathability to the leg immobilizer.

### ROM KNEE BRACE – ONE SIZE

Code: 10.04.007

The Range-of-Motion (ROM) Knee Brace is designed with an easy-to-use range-of-motion hinge. Pre-set stops and motion locks allow quick, easy dorsal and plantar flexion settings. Soft foam laminated material for excellent comfort in daily use. Hook and loop closures for easy adjustment and exact fit. Lightweight while strong and durable. Removable and washable liner.

### KNEE BRACE WITH FOURPOINT HINGE

Code: 10.04.020

This is the brace to use if you are an extremely active individual or athlete who suffers from an ACL, MCL, or PCL instability or injury.

#### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L	XL	2XL
34cm	36cm	38cm	41cm	44cm
36cm	38cm	41cm	44cm	47cm

### NEOPRENE THIGH SLEEVE

Code: 10.04.022

This neoprene thigh sleeve, gives excellent compression to ease the pain in injured quads or hamstrings. The thin, breathable material allows perspiration to evaporate to keep you cool. The unique features of the material mean the sleeve won't slide down the leg, even during vigorous activity.

#### SIZE CHART

Measure the circumference of your thigh on the top and find your size.

S	M	L	XL	2XL
48cm	52cm	57cm	62cm	70cm
52cm	57cm	62cm	70cm	78cm

### NEOPRENE SHIN SLEEVE

Code: 10.04.023

This support sleeve is contoured with 4-way stretch for optimal fit and performance. Adds warmth, compression and support for calf strains, shin splints and varicose vein problems. Offers support and stabilization to reduce instability and prevent further strain or tearing. Therapeutic warmth helps increase flexibility of the calf muscle, while mild compression works to effectively alleviate pain caused by strains, tears, and mild shin splints.

#### SIZE CHART

Measure the circumference of your shin and find your size.

S	M	L	XL	2XL
29cm	32cm	35cm	38cm	42cm
32cm	35cm	38cm	42cm	48cm

### HIP SPLINT

Code: 10.04.024

This splint is made from neoprene material that provides heat and support to the area, featuring a specially designed aluminum stay for support and limitation on the range of movements. Patients of any age who fracture a hip or who suffer a serious soft tissue injury may use these splints to prevent further injury while the hip is healing.

#### SIZE CHART

Measure the circumference of your pelvis and the circumference of your thigh and find your size.

S	M	L	XL	2XL
70cm	80cm	90cm	100cm	115cm
80cm	90cm	100cm	115cm	130cm

### ROM HIP BRACE

Code: 10.04.025

This brace helps to control abduction and adduction while allowing controlled range of hip flexion and extension in those patients where there is concern over postoperative hip dislocation following hip replacement surgery or revision hip replacement surgery. It is particularly useful in patients where muscle control is identified as poor preoperatively but there is a rehabilitation plan to improve muscle control post operatively.

#### SIZE CHART

Measure the circumference of your pelvis and the circumference of your thigh and consult your applicator about the proper size for you.

2S<sup>®</sup>

# ANKLE

## ELASTIC PULL-OVER ANKLE SUPPORT

Code: 10.05.001

Helps control swelling. High-quality elastic provides uniform compression to comfortably reduce swelling during physical activity. Ideal support for weak or injured ankles.

## ELASTIC PULL-OVER ANKLE SUPPORT WITH OPEN HEEL

Code: 10.05.013

Elastic Pull-Over ankle support with open heel providing ankle warmth and compression with comfortable fit that fits comfortably in shoes or trainers. Wear on the left or right ankle during physical activity or everyday routines to give stability and aid flexibility for weak, painful or sprained ankles and ankle joints.

## KNITTED ANKLE SUPPORT WITH SILICONE PADS

Code: 10.05.004

Active ankle support for the muscular stabilisation of the ankle and the relief of ankle pain. It uses a particularly stretchy, breathable and moisture-wicking knitted fabric to give effective compression and excellent comfort.

### SIZE CHART

Measure the circumference of your ankle and find your size.

S	M	L	XL	2XL
24cm	26cm	28cm	31cm	34cm
26cm	28cm	31cm	34cm	37cm

### NEOPRENE ANKLE BRACE WITH STRAPS

Code: 10.05.002

Lightweight, minimal bulk sports ankle brace. Provides a winning combination of effective ankle support and protection. Ideal to wear as a preventative ankle injury brace during all sports.

### NEOPRENE ANKLE BRACE WITH RIGID INSERTS

Code: 10.05.014

Revolutionary ankle brace with a lightweight design to provide the highest level of ankle protection. Perfect for a chronically unstable or recurrent sprained ankle.

### LACE UP ANKLE SUPPORT BRACE

Code: 10.05.003

Strong Support. Metal stays provide stability to both sides of the ankle. Flexible and breathable material allows comfortable fit. Fits right or left ankle. Ideal support for weak or injured ankles, mild or moderate sprains and ankle instability.

#### SIZE CHART

Measure the circumference of your ankle and find your size.

S	M	L	XL	2XL
24cm	26cm	28cm	31cm	34cm
26cm	28cm	31cm	34cm	37cm

### KNITTED PULL-OVER SUPPORT FOR THE ACHILLES' HEEL

Code: 10.05.019

Elastic Pull-Over ankle support for the Achilles' heel with zipper, reinforced with half-heel and extra one for the other foot. Easy to wear with sneakers and other comfortable shoes.

### NEOPRENE FIGURE 8 ANKLE SUPPORT— ONE SIZE

Code: 10.07.010

Lightweight, neoprene wrap that can be easily adjusted and applied to a swollen or injured ankle. The adjustable ankle strap provides a custom fit and firm compression to ensure of total comfort. Latex-free material provides lightweight support during physical activity. Figure 8 design simulates taping for added stability and compression. Adjustable hook-and-loop closure for a secure fit. Fits right or left ankle. Ideal support for swelling, tendonitis, mild sprains and strains and weak ankles. Simulates taping.

### AIRCAST – ONE SIZE

Code: 10.05.005

The Aircast has anatomically designed shells that help prevent the ankle rolling in or out. Each shell is lined with the Aircell system. This system incorporates two pre-inflated overlapping Aircells that provide support and protection during walking. It is low cut in order to fit into sports footwear.

#### SIZE CHART

Measure the circumference of your ankle and find your size.

S	M	L	XL	2XL
24cm	26cm	28cm	31cm	34cm
26cm	28cm	31cm	34cm	37cm

### ANKLE FOOT ORTHOSIS (AFO)

Code: 10.05.006

Braces made of molded plastic offer a different dimension of support than the conventional, metal and leather style. A plastic brace allows even skin contact which decreases the occurrence of pressure points by spreading the corrective force over a larger surface area. Solid ankle AFO's are used to maximize the support of the leg in instances of ankle and knee weakness, spasticity, and for positional support. Different versions of the Solid Ankle AFO are also used to immobilize the foot and ankle to manage wounds, heal fractures, and to decrease pain from arthritis.

#### SIZE CHART

Ask for the proper size according to your shoe size.

S	M	L
35cm	38cm	40cm
37cm	40cm	44cm

### NIGHT / RESTING AFO

Code: 10.05.007

Removable multi – position AFO. Super absorbing removable/washable liner. Enabling resting of the foot and ankle in multi-positions. Prevents ankle plantar flexion contractures. Night Resting AFO's for stretching the calf muscles aid in the management of heel pain (plantar faciitis) and achilles tendonitis.

#### SIZE CHART

Ask for the proper size according to your shoe size.

S	M	L
35cm	38cm	40cm
37cm	40cm	44cm

### FUNCTIONAL ANKLE SPLINT

Ankle splint, boot type, constructed of lightweight and of high quality and durability rigid plastic. Contains lining soft fabric and foam, which provides greater comfort. Features polycentric mechanism to control flexion and extension of the ankle.

The sole is anatomically shaped, anti-slip, ideal to absorb vibrations and to help movement. The application and the compression strap adjustment are made with adhesive closure with velcro. Splint supports the ankle and allows limited movement with safety.

# Kids series

## KIDS FOAM CERVICAL COLLAR

Code: 10.09.010

A soft cervical collar is a device that helps prevent movement of your neck. It is made of soft foam, wraps around your neck, and fastens in the back. When used as prescribed by your physician, this Cervical Collar should be worn for relief from pinched nerves or tightness in neck. It may also provide comfort after a whiplash injury.

## KIDS "PHILADELPHIA" COLLAR

Code: 10.09.025

A Philadelphia collar is a type of brace used to keep your neck and head in the correct position. This gives your injured spinal column and the ligaments time to heal. It also helps support your neck muscles. This collar keeps your neck from moving forward, bending backward, and your head from turning. Staying in bed may cause many pressure sores, blood clots, and other health problems. The Philadelphia collar lets you get out of bed and start moving sooner after your injury. The Philadelphia collar is made of Non-toxic Plastazote® Foam, with Velcro straps to keep it closed. It consists of a front piece with a chin cup, and a curved back piece that fits against the lower part of your skull (head).

## KIDS POSTURE AND CLAVICLE SUPPORT BRACE

Code: 10.09.018

Posture and Clavicle Support brace adjusts to aid in the healing of a clavicle fracture as well as providing general posture support to correct for proper back and shoulder posture. Ideal for clavicle fractures and postural problems. It contains fully padded foam straps for maximum patient comfort. Hook and loop closure allows for easy adjustment.

### SIZE CHART

Measure the circumference of shoulders and find the proper size for your kid.

S	M	L
40cm	50cm	60cm
50cm	60cm	70cm

## KIDS ELBOW SUPPORT

Code: 10.09.019

Neoprene elbow support, with "little bear" print. Neoprene material, regulates the pressure in the tubers of the elbow.

## KIDS NEOPRENE WRIST SUPPORT WITH STRAP

Code: 10.09.012

Wrist support with strap made of neoprene. Provides stabilization and wrist control. It is for light injuries and is also effective in preventive support for sports or work.

## KIDS ARM SLING STRAP

Code: 10.09.007

Adjustable strap made of soft cotton material with non-allergenic lining and a pad for more comfort in the neck area. Holds the upper arm so as to achieve better blood flow and does not press the shoulder with his weight.

### SIZE CHART

Measure the circumference of the elbow and find the proper size.

S	M	L
16cm	18cm	20cm
18cm	20cm	22cm

## KIDS IMMOBILIZING POUCH ARM SLING

Codes: 10.09.006 (LITTLE BEAR),  
10.09.005 (HELLO KITTY)

Kids arm immobilizing pouches made from hypoallergenic materials, in playful designs and colors. They have height adjustable straps and cushion for extra comfort in the area of the shoulder and neck.

### SIZE CHART

Measure the length of your hand and find your size.

S	M	L
16cm	22cm	28cm
22cm	28cm	34cm

## KIDS KNEE SUPPORT

Code: 10.09.014

Knee support made of elastic cotton and Neoprene. Supports the knee area during minor movement or exercise.

## KIDS KNEE SUPPORT WITH SIDE STAYS

Code: 10.09.015

Knee support made of elastic cotton and Neoprene for more comfortable movement of the knee joint with side bolsters that provide better support.

## KIDS 3-POINT HYPEREXTENSION BRACE (JEWETT)

Code: 10.09.002

The 3 Point Hyperextension Brace provides a 3 point pressure system to give a high level of control to the lumbar and lower thoracic region of the spine. To limit front bending, a hyperextension brace features a rectangular metal frame that goes over the front of the body. This frame puts pressure on the chest and pubic bone. Because a hyperextension brace is primarily used to treat spinal compression fractures that occur where the upper back meets the low back, this brace also puts pressure and support on the thoracic spine. This pressure keeps the spine in an extended position.

### SIZE CHART

Measure the circumference of your knee and find your size.

S	M	L
25cm	28cm	31cm
28cm	31cm	34cm

## KID'S FIGURE 8 ANKLE SUPPORT

Code: 10.09.003

Ankle support which protects and helps prevent injuries, and light traumas.

## KID'S ANKLE SUPPORT WITH OPEN HEEL

Code: 10.09.021

Elastic ankle support with open heel, suitable for the prevention & moderate rehabilitation of ankle injuries.

## KIDS ANKLE SUPPORT WITH SILICON AD-ONS

Code: 10.05.004

Ankle support with silicon ad-ons in heel area. Suitable for the rehabilitation of ankle injuries.

### SIZE CHART

Measure the circumference of your ankle and find your size.

S	M	L
18cm	20cm	22cm
20cm	22cm	24cm

## KIDS NEOPRENE WRIST SPLINT WITH STRAP

0-3 μηνών	3-6 μηνών	6-9 μηνών	9-12 μηνών	12-15 μηνών

# FEET / TOES

## HALLUX VALGUS (BUNION) DAY STRAP— ONE SIZE

Code: 10.05.008

A hallux abducto valgus deformity, commonly called a bunion, is a deformity characterized by lateral deviation of the great toe, often erroneously described as an enlargement of bone or tissue around the joint at the head of the big toe. This day-strap stabilizes the great toe in extension, flexion and adduction. With soft foam-lined straps that will not slip or roll. It is thin enough to be worn with shoes.

## HALLUX VALGUS PADDED SUPPORT NIGHT SPLINT— ONE SIZE

Code: 10.05.009

Immobilizes the hallux for maximum healing. Provides adjustable varus/valgus positioning for correct alignment. Suggested for non-ambulatory use, primarily at night.

## SILICONE TOE SEPERATORS

Code: 13.00.001

A corrective shield placed in between toes, to prevent overlapping of the toes commonly caused by bunions and hammer toes. The toe separator is ideal for treating more severe cases of overlapping toes.

### SIZE CHART

S, M, L

## SILICONE ARCH SUPPORTS

Code: 13.00.009

Supports weak or fallen arches and reduces pain and pressure. Suitable for low and high heel shoes. Ideal for close fitting footwear.

Easy to fix with adhesive peel-off backing

Covered with CARBOSAN anti-bacterial and anti-fungal to help reduce foot odour

Relieves foot, heel, ankle, knee and lower back pain.

Many common foot problems, including bunions and toe cramps, can be alleviated through the proper use of arch supports.

### SIZE CHART

Ask for the proper size for you according to your shoe size.

S	M	L
35cm	38cm	40cm
37cm	40cm	44cm

## SILICONE INSOLES

Code: 13.00.004

Silicone insoles are hypo-allergenic, not-toxic and odourless. They will not flatten under repeated pressure from walking or standing and have a very long life expectancy. Ideal for plantar pain, heel pain/spurs, metatarsalgia, arthritis, plantar fat pad atrophy, and lower back and joint pain.

### SIZE CHART

Ask for the proper size for you according to your shoe size.	S	M	L	XL	2XL
	35cm	38cm	41cm	44cm	47cm
	37cm	40cm	43cm	46cm	+

## SILICONE INSOLES ¾

Code: 13.00.005

Silicone insoles,¾, suitable for every day wear for sports, work or recreational activities. They are also "non-skid" insoles which are easy to clean, durable and a joy to wear. Lightly sprinkle the top side of the insole with baby powder to minimize friction with your foot.

### SIZE CHART

Ask for the proper size for you according to your shoe size.	S	M	L
	35cm	39cm	42cm
	38cm	41cm	44cm

## SILICONE HEEL CUSHIONS

Code: 13.00.006

Silicone insoles designed to reduce stress to the joints and spine even under constant pressure. This product combines a well designed heel cup with a pressure relieving soft blue spot. Absorbs impact at heel strike, ideal for Heel Spurs and early morning heel pain.

### SIZE CHART

Ask for the proper size for you according to your shoe size.	S	M	L
	35cm	39cm	42cm
	38cm	41cm	44cm

## SILICONE INSOLES FOR CALCANEAL VALGUS & CALCANEAL VARUS FEET

Code: 13.00.010

Provides redistribution of pressure beneath foot and attenuates impact of heel strike, relieve pain. Silicone insoles are hypo-allergenic, not-toxic and odourless. They will not flatten under repeated pressure from walking or standing and have a very long life expectancy.

### SIZE CHART

Ask for the proper size for you according to your shoe size.	S	M	L	XL
	35cm	38cm	41cm	44cm

## SILICONE METATARSAL PAD

Code: 13.00.008

This metatarsal pad is made of adhesive silicone for stabilization in the shoe. Its unique design cushions and supports the entire metatarsal area, i.e. the width across the ball joint, to make walking easier and pleasurable once again. Metatarsal injuries are quite a common injury especially for runners, as there is a constant pounding and runners are putting constant stress on their feet. It's a common injury for women who wear high heels as well.

### SIZE CHART

Ask for the proper size for you according to your shoe size.	S	M
	35cm	39cm
	38cm	43cm

## METATARSAL CUSHION – ONE SIZE

Code: 13.00.002

Metatarsal cushion containing silicone padding at the base. The cushion design allows minimal movement in the shoe and keeps the pad secure under foot.

# Medical Stockings

## GRADIENT COMPRESSION PANTYHOSE (18/24MMHG)

Code: 12.00.004

Gradient Compression Pantyhose (18/24mmHg) provide adequate compression while allowing the skin to breath. Made of non allergenic material.

### SIZE CHART

S, M, L, XL, XXL

## GRADIENT COMPRESSION KNEE HIGH SOCKS CCL1 (18/24 mmHg) / CCL2 (25/35 mmHg) OPEN TOES

Codes: 12.00.003 / 12.00.006

Strong graduated compression stockings made of durable, skin friendly, breathable material. For preoperative and postoperative use and treatment of phlebitis. Available in beige and black.

### SIZE CHART

S, M, L, XL, XXL

## GRADIENT COMPRESSION THIGH STOCKINGS WITH SILIKONE CCL1 (18/24 mmHg) / CCL2 (25/35 mmHg) / CCL2 (25/35 mmHg) OPEN TOES

Codes: 12.00.005 / 12.00.008 / 12.00.007

Strong graduated compression stockings made of durable, skin friendly, breathable material. For preoperative and postoperative use and treatment of phlebitis. Available in beige and black. Suitable for men and women.

### ANTI-EMBOLISM, THIGH STOCKINGS WITH SILICONE, ANTI-EMBOLISM KNEE HIGH SOCKS, ANTI-EMBOLISM MONO HOSE (RIGHT OR LEFT)

Codes: 12.00.018 / 12.00.019 / 12.00.020

Anti-embolism socks specially designed for post- operational use in order to avoid blood clots and embolisms. Suitable for women & men.

#### SIZE CHART

S, M, L, XL, XXL

### SOCKS FOR DIABETES

Code: 12.00.022

Sock that relieves the symptoms of diabetes in the lower limbs. No elastic band. Antibacterial effect.

#### SIZE CHART

S, M, L, XL, XXL

## PHLEBITIS / LEG RESTING SOCKS

### 140DEN, KNEE HIGH, THIGH HIGH STOCKINGS & PANTYHOSE

Codes: 12.00.010/12.00.009/12.00.011

Elastic fabric socks with compression, that relax and relieve foot while offer a comfortable walk. Available in various colors with a transparent weave for everyday application. Preventive use on varicose veins and phlebitis.

#### SIZE CHART

S, M, L, XL, XXL

### 70DEN, KNEE HIGH, THIGH HIGH STOCKINGS & PANTYHOSE

Codes: 12.00.012/12.00.014/12.00.013

Socks and stockings ideal for tired feet after long hours of standing. Prevention therapy for phlebitis & varicose veins. Available in many colors.

#### SIZE CHART

S, M, L, XL, XXL

### MATERNITY SUPPORT PANTYHOSE 70DEN

Code: 12.00.023

Maternity Support Pantyhose with flexibility in the abdomen and lining to avoid unwanted pressure. It's compression relaxes the feet and helps prevent varicose veins which are often created during pregnancy. The use of elastic compression stockings can reduce volumetric variations during standing hours.

#### SIZE CHART

S, M, L, XL, XXL

### 40DEN, STOCKINGS, KNEE HIGH SOCKS

Codes: 12.00.015 / 12.00.017

Extra thin socks, ideal for tired feet after long hours of standing. Prevention therapy for phlebitis & varicose veins. Various colors.

#### SIZE CHART

S, M, L, XL, XXL

# Anatomic Pillows / Cushions

## ANATOMIC SLEEPING PILLOW

Code: 11.00.001

This pillow is made of visco-elastic (memory foam) and is designed to support your neck during sleep. It is covered with hypoallergenic material which can be removed and washed. This type of pillow has a deeper depression where the head lies and extra support under the neck. People with neck pain may favor these pillows, as they fill the hollow space created by the neck and help keep the neck in alignment with the spine.

## NECK SUPPORT ANATOMIC PILLOW

Code: 11.00.002

A pillow that is contoured to fill the spaces under the head and neck can be helpful for people with neck pain. Also called "cervical pillow" or "orthopedic pillow". This type of pillow has a deeper depression where the head lies, and extra support under the neck. Available in two sizes: Large (L57cmXW36cmXH10cm) & Small (L45cmXW32cmXH10cm).

## TRAVEL PILLOW

Code: 11.00.008

A "U" shaped pillow that is curved to fit snugly around the neck can be used for sleeping or supporting the head when in a seated position. This type of pillow prevents the head from bending too far to one side or the other. It also creates a support so that the weight of the head is partially taken care of by the pillow. This relieves some of the work done by the muscles keeping the head up and may be beneficial while sleeping in a sitting position, such as in an airplane or in a car.

### TUBE SUPPORT CUSHION

Code: 11.00.010/11.00.011

Pillows that provide effective support and treat problems in spine, waist and neck.

### LOWER BACK SUPPORT CUSHION

Code: 11.00.004

A lower back support pillow helps provide support for the inward curve in the lumbar spine and it is ideal for every type of seat, even while sitting in a car.

### DONUT CUSHION

Code: 11.00.003

As the name implies, this is a donut-shaped pillow that is placed on the seat portion of a chair. With either a depression or a hole in the center of the pillow, one can sit with much less pressure in the coccyx region (the tailbone).

### INCLINED WEDGE CUSHION

Code: 11.00.013

Inclined pillow with wedge support, 70X60X30 for legs and torso support and for any other body part which is in need.

### INCLINED WEDGE CUSHION

Code: 11.00.020

Inclined pillow with wedge support abduction, 40X35X25. Supports various parts of the body.

### COCCYX CUSHION

Code: 11.00.018

# Hospitalization & Homecare

## PROTECTIVE UNDERPAD FOR SINGLE / DOUBLE / CHILD MATTRESS

**Cod.: 14.00.069 / 14.00.080 / 14.00.036**

Made from terry fabric with waterproof lining. Washable and reusable. Protects the mattress from leaks. 90x190 / 160x200 / 90x140.

## UNDERPAD FOR HEAVY INCONTINENCE

**Code: 14.00.044**

Absorbent cover with waterproof lining. Used as bottom sheet incontinence, for additional protection of the bed. Reinforced, ideal for cases of great incontinence.

## PROTECTIVE PILLOW CASE

**Code: 14.00.039**

Protective waterproof and reusable pillow case. Protects the pillow from spills and stains. Helps to maintain patient hygiene.

## MEAL APRON

**Code: 14.00.068**

Apron of terry fabric with waterproof lining. It has a sheath at the bottom in order to collect food while feeding so as the patient remains clean. Secured with adhesive strips on the neck. Washable and reusable.

## DISPOSABLE UNDERPADS

**Code: 14.00.016**

Underpads: Highly Absorbent, soft fluff fill Waterproof, non-skid blue backing, sealed on all four sides to prevent leakage.

## INCONTINENCE DIAPERS FOR ADULTS

**Cod.: 14.00.023 / 14.00.024 / 14.00.025**

Diapers for one use with special waterproof lining that prevents leaks, double pulp layer for excellent absorbency, lined with soft material for skin care and adhesive safety tapes. Sizes: M, L, XL.

**HAIR WASH BASIN (INFLATABLE)**

**Code: 14.00.022**

Hair Wash Basin is an inflatable basin designed for comfortable and convenient in-bed shampooing. The special design of basin hair wash provides secure, form-fitting support that cushions the head & shoulders.

**HOT WATER BOTTLE**

**Code: 14.00.040**

A hot water bottle (water warmer) is a container filled with hot water and sealed with a stopper, used to provide warmth, typically whilst in bed, but also for the application of heat to a specific part of the body. It is easy to fill with warm water and provides the needed warmth to the desired body part.

**ELECTRIC HEATING PAD**

**Code: 14.00.012**

Multifunctional and practical heating pad ideal when heat application is needed in specific body areas. Relieves body and muscle pain. Various temperature levels allow you to choose the desired heating power. Automatically stops after 90 mins of operation for safety reasons.

**WARM / COLD PAD**

**Code: 10.06.029**

For cryotherapy place in the freezer for 1-2 hours. For thermotherapy place in a microwave oven for 1-2 minutes.

**SPLINT / PLASTER PROTECTOR**

**Codes: 14.00.028 / 14.00.029**

The protective splint / plaster is available in different sizes for both leg and arm. Easy to wear and remove. Flexible and non-latex bulkhead keeps the splint or cast dry while showering, bathing, or even swimming in the pool or at the sea.

**MULTIPOSITION ADJUSTABLE BACK SUPPORT**

**Code: 14.00.011**

This Multi-Position Back Rest has been designed for use with your existing pillow or cushion, to provide a raised position for additional comfort and support. The adjustable design has five adjustment angles which enables you to customise the backrest for your preferred comfort.

**URINAL / BEDPAN / DRAINAGE BAG**

**Codes: 14.00.026 - 14.00.004 - 50.00.151**

Plastic urinal, for women and men. Skoramides and urine collectors made of durable plastic, ideal for bedridden patients. 24 hours urine collection and sterilized urinals.

### RAISED TOILET SEAT

Code: 14.00.008

Raised toilet seats are Bathroom Assist Devices that are easier to sit down upon and easier to get up, designed to reduce the need to bend down; minimizing risk to those who have delicate hips and joints. Raised Toilet Seats provided greater safety and cause less strain for mobility patients. As specialized commode seats, they provide increased bathroom safety by reducing injury risks related to bathroom falls.

### DROP ARM HEIGHT ADJUSTABLE COMMUNE

Code: 15.00.071

Durable aluminum construction with easy release drop arm allowing for safe side transfer and snap on seat with lid. Adjustable height (39-49cm) Backrest is removable and arms have comfortable hypolon covering. Includes bucket with lid and splash guard.

### ADJUSTABLE TUB TRANSFER BENCH

Code: 15.00.037

Tub transfer benches extend beyond the edge of the bathtub and are designed to help out make transfers in and out of the bathtub as safely as possible. They have a comfortable seat so you can sit down while you shower, and arm-rails which provide you with additional support. Transfer benches are available with or without padding.

### BATH BENCH ADJUSTABLE IN HEIGHT

Code: 15.00.070

The seat is constructed of durable plastic with easy-to-grip handles and molded-in areas for hand-held shower spray storage.

### STANDARD CARE FOAM MATTRESS / SECTIONAL MATTRESS

Codes: 15.00.020 / 15.00.113

Mattresses of durable foam thickness 10cm (or thicker in cases of overweight patients) with cracks corresponding to the slopes of the hospital bed, dressed in cotton fabric.

### ALTERNATING PRESSURE AIR MATTRESS (ENTRY LEVEL)

Code: 14.00.007

This air mattress is designed to fit over an existing twin mattress or bed. This mattress is also used over medical bedframes, gel mattresses, and even on reclining chairs. Pad and pump systems are entry level air mattresses used to assist with the treatment of bedsores. This cost effective air mattress will immediately help to reduce painful pressure points and will heal and prevent basic bedsores.

### ALTERNATING AIR TUBE MATTRESS (UP TO STAGE 4)

Code: 14.00.032

This state of the art alternating pressure and low air loss mattress features up to stage 4. This hospital grade air mattress automatically readjusts air flow for optimal performance and comfort. This alternating pressure mattress system supports up to 400 lbs and remains inflated in the event of a power outage. This hospital grade air mattress is designed to heal up to and including stage 4 bed sores. The built in low air loss feature is designed to keep the patient cool and dry while reducing moisture and heat build up.

## ELECTRIC HOMECARE BED

Code: 15.00.042

Strong frame height adjustable with wooden panels. Electric control operates the bed, the feet, the head etc. Rechargeable batteries are available for use, in cases of power outages.

## HOSPITAL BED DOUBLE CRANK

Code: 15.00.028

Double crank hospital bed. Manually adjusts the position of the back and the legs. Strong frame with detachable head and foot rests. The bed can have wheels, side rails, trapeze bars etc.

## HOSPITAL BED SINGLE CRANK

Code: 15.00.015

Single crank hospital bed. Manually adjusts the position of the back. Strong frame with detachable head and foot rests. The bed can have wheels, side rails, trapeze bars etc.

**BED TRAPEZE**  
Code: 15.00.018

**FREE STANDING BED TRAPEZE**  
Code: 15.00.039

**STANDARD TELESCOPIC BED RAILS**  
Code: 15.00.016

### HOSPITAL BED 'S HANDLE

Code: 15.00.102

Metal handle with metal base and metal clip which fits into the bed.

### SHEET BOW

Code: 14.00.043

The sheet arc is placed on the bed to keep the sheets and heavy blankets raised from the feet and the body of the patient.

### I.V. STAND

Code: 15.00.145

I.V. stand adjustable in height.

### ELECTRICAL LIFTING CRANE

Code: 15.00.075

Steel construction with adjustable seat base, wheel rotators, removable battery and charger, low battery audio indicator and a fabric hammock. There are different hammocks (for torso and head support, toilet, bathroom, etc.), spare motors, batteries, chargers and joystick controls. An important tool for lifting and transferring patients in bed or with chronic immobility, anywhere at home or in clinic. The adjustable base is designed to pass through narrow doors.

# 2S<sup>®</sup>

## WHEELCHAIRS / TRANSPORTATION

### ELECTRIC SCOOTER
